

Town Manager Report - February 2020

During the first week of this month the Town's well meters #1 and #2 and the sewer meter were calibrated. This gets done annually.

Also announced during the first week of the month was USA Cycling has chosen Clay County to hold their National event here and Penney Farms will be one of the ace locations. This is exciting news and the Town Hall and Penney Retirement Community will be partnering together to handle this event, which is scheduled for June 25th – 28th, of this year.

I have reached out to a street sweeping company out of Jacksonville to come and look at our Town and get a quote for outsourcing these services, as requested by the Public Works Committee.

The tennis courts were cleaned this month and look great!

The last week of the month, I began interviewing for the public works position available and more interviews will take place in the first part of March

I attended the monthly Northeast Florida League of Cities dinner, the 1st Quarter Town Council Workshop, as well as all of the required Town meetings scheduled for the month of February.
